QUANTITY ASSURED,

and Quality will be the Next Considera tion-What the Water Company Proposes to Do.

Resignation of President T. J. Latham Announced-An Interesting Interview with the Gentleman.

and winter stock will take place within the next few days. Therefore he proclaims that in order to have ample room for the reception of said goods he will continue to sell as heretofore at unheard of low prices, with adness to talk upon the subject of the water supply of the city, Judge T. J. Latham said ditional sweeping reductions in several lines of goods sufficient to insure their speedy sale, and thus give the necessary room re-quired. The rapid advances in cotton and wool, which are having a corresponding efthe Water companyhas to perform in connection with that system.

Reporter—All right, Judge, the APPEAL will gladly give place to all you have to say, knowing the interest felt by the public in the question of water supply, and the quantity and quality of the article—the prospects of improvement in both—and such other mat-

and are preparing to lay as rapidly as possi-ble, a large line of water pipe through the center of the city, to be supplemented with

such extensions as will insure an ample sup-ply. Had we known the real source of diffi-culty, it could have been obviated long ago,

Reporter—Pardon me, Judge, don't you think that the public have been justified in

think that the public have been justified in censuring your company, especially for not having long ago made the investigation as to the cause of the troubles complained of?

President Latham—Emphatically no, sir; for two reasons: First, the best engineers pronounced the lines of ample capacity to meet the demands of the present year, and that no additions would be needed before the coming year. Secondly, they still so insist.

coming year. Secondly, they still so insist

if it were not for the wholesale waste. Until recently they could not believe it prevailed to such a ruinous extent. Mr. G. W. Pear-

sons, Chief Engineer of the Kansas City

"Kansas City, with a population double

ransas city, with a population double that of Memphis, and supplying many rail-roads, mills and factories, as well as fifty elevators, requires only 2,000,000 gallons daily, and Providence, three times as large, uses only 3,000,000, while I find you are actually pumping more than 5,000,000 daily. No wonder many of your citizens complain of

wonder many of your citizens complain of want of water; but palpably the fault is with

the people, not with you. Although you need additional lines, those you have would suffice for some time, but for the waste."

Reporter—Then you think, Judge, that your corporation is more sinned against than
